Gilvan Zeytoon

In Gilvan Zeitun, we have always strived to offer the best olives and products by combining love, interest, experience, world-class technology, and high-quality raw materials. Gilvan Zeitun was registered in the field of olive sales and its products and olive oil refining in 1991 and started operating about 4 years later by installing industrial machines. Our priority in Gilvan has always been to produce our products using high-quality raw materials and satisfy our customers. By obtaining a license from the Industry, Mine, and Trade Department of Zanzan Province, Gilvan Zeitun can produce 5400 tons of raw olive oil and various types of liquid olive oil, canned olives, and pickles. Today, in Gilvan Zeitun, we are proud to take great steps to create jobs in the deprived area of Tarem and help gardeners in this area to expand their activities.
